

Pay For Your Next Rickshaw Ride With 'On Go' Mobile Wallet!

Networked India | September, 26 2015 |

The next time you travel in an autorickshaw you won't have to worry about having sufficient change to pay the driver or heckle with him about it. The Times of India reports that AGS Transact Technologies has launched an app which commuters in Mumbai can use to pay for rickshaw rides. The drivers themselves think this is a good idea and about 10,000 of them between Dahisar and Malad have tied up with the firm for cashless payment through their app.

On downloading the app, users get a discount of Rs. 100 on the fare. Chairman and MD of AGS Transaction Ravi Goyal also said.
